

Commissioning

Commissioning enables long-term improved performance of building systems by assuring that these systems are designed, installed, tested, and verified to meet the design intent and owner’s requirements. Our experienced engineers can provide both Fundamental and Enhanced Commissioning services, as well as Retro-Commissioning and Re-Commissioning of existing systems to correct ongoing MEP issues in existing facilities.

Alan Bailey has commissioned over **6 million square feet**, and has 40 years of experience as a mechanical engineer.

Edmonds can Commission the following systems:

Benefits of Edmonds Commissioning Services:

- Change order reduction of up to 90% and average energy savings of 15% when compared to projects that are not commissioned
- MEP firm familiar with design & CA
- Experience as UA 3rd party inspector
