COMPANY INFO

DUNS 00-767-9160 | NAICS 541330 | CAGE NUMBER-1UYQ2

Edmonds Engineering provides **mechanical, electrical, plumbing, fire protection, and commissioning professional engineering design services** to our customers, helping them **achieve their small business** subcontracting goals. Edmonds Engineering professional and technical services include:

Mechanical, Electrical, Plumbing, and Fire Protection Design services – execution of prime and sub- prime projects, design-build projects, and working with architects for design-bid-build projects. Over 25 licensed PEs.

Arc Flash studies – execution of full arc flash studies, as well as comprehensive electrical safety training and mentoring for bases and federal institutions. Provide engineering support for electrical safety programs, policies, and procedures. Edmonds has performed over **800 arc flash studies**.

Technology Planning – planning and designing project technology and low-voltage systems requirements, developing budget estimates, issuing CSI specifications, while tightly coordinating with the federal design team in assisting with system selection and device placement. Edmonds’ technology planner is RCDD Certified.

Commissioning – performing both fundamental and enhanced commissioning services, as well as retro-commissioning and re-commissioning of existing systems to correct ongoing MEP issues in existing facilities. Our commissioning agent is CxA certified and our team has experience commissioning over **6 million square feet** of operational facilities.

What Differentiates Us?

Federal Experience: In the last year, we've been awarded or started 12 new federal contracts and projects. Our engineering team has worked on over 20 bases with experience from multiple engineers.

Diverse Experience: Edmonds works in a broad set of markets, including Healthcare, Commercial, Higher Education, Industrial, and Aeronautical and Aviation facilities. With this in mind, we are able to serve Federal clients with specialized needs, multiple facilities, and across various markets.

Small Business with Broad Footprint: Edmonds is licensed in 34 states mechanically and 36 states electrically. We have offices in 5 locations throughout the Southeast, and work with repeat clients nationwide.

WELL SEASONED STAFF WITH A COMBINED

450+ Years Mechanical Experience

275+ Years Electrical Experience

200+ Years Plumbing Experience
